LESSON 2 - ASSIGNMENT

1. Work out your height in hands for use when guesstimating a horse's height.

2. Write up what you found out in set task 1 about breeds of horses. Do you agree or disagree with what you found out/were told? Write one page.

3. Describe the different ways of trading (ie. buying or selling) horses in your locality (based on your set task). Write 300 – 500 words.

4. Develop a checklist (on one page) of factors to consider when buying a horse for a specific type of use (your choice of use). The checklist of factors will be used to conduct an analysis of a horse offered for sale, and as guidelines to report on that analysis (see Question 6 of this assignment).

5. Compare five different advertisements for the sale of horses of a similar type, to determine which of the five appears to be the best value, and list the reasons why it appears good value. List should be no more than ½ page long.
Include a copy of each advertisement with your assignment.

6. Evaluate the features of a horse being offered for sale in your locality, to determine the value of that horse. Write no more than ½ page.

7. What type of horse would best suit you? Note down all the aspects of a horse you have covered in this lesson (e.g. breed, height, age, sex, etc). Write at least ½ page but no more than one page.
