

LESSON 7 - ASSIGNMENT

1. Discuss the organisation of a Maintenance department of a large hotel.
State the factors for which the maintenance staff is responsible.
2. A hotel is situated at the centre of a large city (eg the capital of your state).
Discuss the basic factors which will affect the heating and ventilation requirements to ensure a high degree of comfort throughout the building.
3. External maintenance of a hotel building should include routine inspections.
Discuss what aspects these inspections should cover, and what defects should be reported.
4. With the aid of a neat, labelled diagram from Set Task 2, describe the wiring and cable arrangements for a typical circuit electrical distribution board.
5. What furniture and fittings are mandatory in a hotel? What furniture and fittings would be different in standard room as opposed to a superior room?
6. Review and improve the checklist developed in your set task.
